

## SECTION 6

### FRESH WATER AVAILABILITY AND COST

- Fresh water is supplied by pipeline with vessel's hose.
- Drinking water certificate available (attached "*Informe de resultado de Cruceros*") and water system for supplying water is same as for the city.
- The rate of flow is of 25 tons / hour approx.
- Only one connection available (70 mm international connection).
- The cost is 2,1219 €/ton (1)
- To the cost of the water, it must be added the water supplying service (2) and pipe ends maintenance fee (3) which is as followed:

Services on normal working hours: €

- From 41 to 50 tons      1,057 € X ton
- From 51 to 75 tons      0,949 € X ton
- From 76 to 100 tons      0,842 € X ton
- From 101 to 200 tons      0,734 € X ton
- From 201 onwards      0,699 € X ton
- \*\*Pipe ends maintenance      0,526 €

- Minimum service: 43,95 X ton
- Surcharges out of normal working hours: services rendered from Saturday 14:00 hrs. up to Mondays 08:00 hrs., holidays and the rest of the days from 20:00 hrs. up to 08:00 hrs. of the following day will have a surcharge of 48,64 €.
- *Example*
  - For the supply of 100 tons. the cost is 2,1219 €/ton.
  - Services on normal working hours:
  - $2,1219 \text{ €} \times 100 \text{ tons} = 212.19 \text{ €}$  (1) cost of fresh water only
  - $0,842 \text{ €} \text{ (2) service fee} + 0,526 \text{ €} \text{ (3) maintenance fee} \times 100 \text{ tons} = 136.8 \text{ €}$
  - Total amount: ----- (1) + (2) + (3) ----- = 348.99 €
